10. Nature of Defect: (complete, concise explanation of the perceived problem)

The first bullet point (a) indicates that an **AttributeError** error is returned if none of the attributes selected in the attributes component is present. This is incorrect as it does not take into account that attribute information may be returned via the **extraAttributes** component.
11. Solution Proposed by the Source: (optional)

Remove the last sentence "An AttributeError with ..." from the first bullet point a). The circumstances that give rise to an AttributeError are specified in the descriptions of the relevant individual operations. (Read is the only relevant operation.)
