

## DEFECT REPORT FORM

1. Defect Report Number:                    **238**

Title:    Wrong reference of string types in X.520

2. Source: CEN/ISSS/WS-DIR (ISSS-x520-2)

3. Addressed to:    ISO/IEC JTC1/SC6 and ITU-T SG 7  
                         Editor Group on the Directory

4. (a) WG Secretariat:                    UK (BSI)  
     (b) ITU-T WP:                        WP 4

5. Date Circulated by WG Secretariat:

6. Deadline for Response from Editor:

7. Defect Report Concerning:

ITU-T Rec. X.520 (1993) | ISO/IEC 9594-6:1995

ITU-T Rec. X.520 (1997) | ISO/IEC 9594-6:1998

8. Qualifier: Error

9. References in Document: (e.g.: page, clause/section, figure, and/or table numbers)

6.1.1 and 6.1.2 to 6.1.6

10. Nature of Defect: (complete, concise explanation of the perceived problem)

Technical corrigendum 1 to ITU-T Rec. X.520 (1993) | ISO/IEC 9594-6:1995 introduced the following change:

### **Clause 6.1.1**

In the first paragraph, replace the text “attribute value of type **DirectoryString**” with:

attribute value of type **PrintableString, NumericString, TeletexString, BMPString, UniversalString, or DirectoryString**

**Clause 6.1.2 - 6.1.6**

In the first paragraph, replace the text “attribute value of type **DirectoryString**” with:

attribute value whose type is one of the ones listed in 6.1.1

This technical corrigendum seems to be a mistake. Most of the string types listed are already part of **DirectoryString**. The only exception is **NumericString**, which has its own matching rules

11. Solution Proposed by the Source: (optional)

Go back to the original 1993 text.

12. Editor's Response:

(any material proposed for processing as an erratum to, an amendment to, or a commentary on the IS or DIS final text/ITU Recommendation or Draft Recommendation is attached separately to this completed report).
